IV Writing

1. Write about your favourite foods

I am very curious person and I like to try new things. It is interesting for me to travel, to meet new people, to learn new facts. I think new things give us new experience and emotions. Our life becomes much more interesting so.

Talking about food in general I like sushi a lot. Like different tastes and with different ingredients. I don't eat them often but sometime we go to the restaurant with my family and I always order them.

I have found the recipe on internet how to cook them. I think soon I will start to cook sushi by myself. I really would like to cook something good for my family and friends.

Also I like fruits a lot. I eat all kind of fruit. In summer I do fruit salad and smoothie. It is very healthy and delicious. You can even make your own recipe with fruit and berries. So every day you can have different type of breakfast. It's nice to eat the products.

I am sure there are many different kind of food in the world. I hope the best food I will try in the world. I hope the best food I will try in future so maybe one day I will become a chef and I will cook very often.

Task 1

IV - writing

My favourite sport.

I think all people have their favourite sport. I love playing football. It is a fantastic game. When I was a little boy, my dad took me to football matches that were held in our city. We went to see our home team. Later, I started playing football with other boys in the yard and now I play in our school team. There are a few reasons why I love football. Firstly, this game keeps us active and fit. It is important to be able to run fast and think quickly. Secondly, it requires little equipment. In fact you can start a game if there are a few players a ball and a flat open area to play. Football can be played in yards, parks, school, sporyard, and stadiums. I do not think that I will become a professional footballer, but I will always enjoy playing football with my friends.
